'OPEN DOOR' BEST CHIEF THINKS

Colorado Governor Nearly Lost \$22,500 by Keeping Caller Outside

DENVER — Joseph E. Moorhead, the general secretary to Governor O. H. Shoup, is planning on taking a course in "character reading" to enable him to distinguish "important" visitors from those who may fiddle away the time of the chief executive at his office in the State Capitol.

The Governor, who has many business interests in the state has already lost several hundred dollars and narrowly escaped being minus a check for \$22,500 because visitors at the executive office were forced to toast their shins in the "waiting room" while State Senators and Representatives were conferring with the Governor on legislative matters.

While Governor Shoup was taking a stroll downtown recently two men approached him. One he immediately recognized.

"Good morning, Governor," greeted the man.

"Good morning," replied the Governor. "A bit chilly, isn't it?"

"Yes," agreed the friend, "and that's what this man here thinks about your office up on the hill, too. He has called at the executive office several times and on each occasion he has been unable to see you, altho he has waited long and patiently. And he wants to give you some money."

The Governor then recognized the other man as a representative of a business concern in which he was interested and which had an important deal under way.

Referring to an office the Governor was handed a check for \$22,500, which he was told, the man had wanted to give him for some days, but he had been of waiting around the executive office.

"That isn't the only time, either," Governor Shoup said, recounting the incident. "I lost \$540 because a man couldn't get to see me some time ago and now the latest thing will be on the outside at the Capitol."

MRS. W. F. BAKER, of Milwaukee, Oregon, who says she has been restored to perfect health by Tanlac after having suffered for twenty years. Her statement is remarkable.

"For the last twenty years I have suffered from stomach trouble in its worst form. I was in misery all the time. If I took a drink of coffee or milk or even water, it would cause belching and gas. In fact, absolutely nothing would digest in my stomach. I always had an awful burning sensation in the pit of my stomach. I believe I have taken almost a wagon load of soda for stomach trouble. I would have to take it night and day. Gas would bloat me up so badly I couldn't fasten my clothes. At times my heart would palpitate and flutter so badly I would nearly smother and I would have to gasp for breath. In fact, I thought I had heart trouble."

"I was very fond of cheese and the least bit would throw me right into spasms. I was also very fond of onions, but they would upset me terribly."

"My whole system was out of shape and I was also bothered with rheumatism and neuritis. Pains in my arms and other joints were almost unbearable. I had to carry one of my arms in a sling and couldn't raise it up to my head. My hands would swell up and for a long time I was in just an awful condition."

"I told my husband I guessed I would have to give up and die, as the doctors' medicines and other things I took didn't do me any good. Then he got me some Tanlac and said I had to take it. Well, before I finished one bottle, I found the things I would eat did not bother me so much. I kept gradually getting better and finally after taking five bottles, my trouble was entirely relieved. I can now eat onions, cheese or anything I want. In fact, I am in perfect health in every way. My neuritis and rheumatism have also left me. I know that five dollars' worth of Tanlac has done me more good than a hundred dollars' worth of other medicines. I will sing the praise of Tanlac as long as I live."

The above remarkable statement was made by Mrs. W. F. Baker, whose address is Milwaukee, Oregon, R. F. D. No. 2.

Tanlac is sold in Lima by Hunter's Drug Stores and leading druggists everywhere.—Adv.

GOT RELIEF AFTER HAVING BRONCHIAL TROUBLE 20 YEARS

Choked Up So Bad That You Could Hear Him Wheeze Across the Room

COUGH WAS VERY BAD

"I've spent a lot of money trying to get relief from bronchial trouble and have paid some pretty high prices for medicine, too but never got as much good from all of it as I have received from just one bottle of Earle's Hypo-Cod."
"Of course I have only taken this tonic a little while, but it works like magic and others who have noticed my improvement prove what I say."
"I had bronchial trouble and a bad cough and would get so choked up at times I could hardly breathe. I would choke up and wheeze so bad you could hear me across the room. I would cough and spit up so much phlegm it was awful and it made me actually vomit. For twenty years I have grown steadily worse until I was so nervous, weak and worn out with it I could hardly keep going. But that is an old story now, for since I've taken Hypo-Cod a few days and dust and dirt about the shops where it flies thick and heavy doesn't bother me anymore and my cough is practically cured. I'm gaining weight, eat heartily again, breathe and feel better than I have in six years. I got my brother to take some and a number of friends are also getting splendid results so when you ask me—I say: "Get Earle's Hypo-Cod down at the drug store and it will do the work," declared Mr. J. A. Taylor, machinist, at the Penna. Ry. Shops in Columbus and living at No. 6 Clark Place.
Some people drag along for years without trying to get relief. Others try various remedies but without experience it is hard to pick out the right one. Others pay out huge sums doctoring without results. No one can go wrong by taking the advice of thousands of people in all walks of life—every one of whom praises this newer, more modern and powerful preparation that tastes too nice and agrees so perfectly with the weakest stomach. This is the time of year to take Earle's Hypo-Cod. All druggists have it. The cost is trifling.—Adv.

IT COSTS TOO MUCH TO BE SICK

Keep Your Blood in Good Condition and You Throw Off Disease

PAY ATTENTION TO YOUR HEALTH

No Need to Take Chances With it. Pepto-Mangan Makes Rich, Red Blood

When you first feel a tired, all-gone feeling and look pale, your blood is losing in quality. Weak, impoverished blood has no power to fight disease. It takes red blood to keep you well.
If you keep your blood in good condition it will fight off disease. You will not be such an easy prey to long and expensive sicknesses. With this blood you take chances every day.
There's no need doing that. You can take Pepto-Mangan and build up rich, red blood. With red blood you are able to win in the fight against prevailing diseases. Try Pepto-Mangan. It comes in tablet or liquid form. Take either kind. The liquid has the same medicinal value as the tablets. Be sure you get the "Gale's" and be sure that the name, "Gale's Pepto-Mangan," is on the package.—Adv.

WAPAKONETA — (Special) — Efforts of Sheriff Ewing to locate Clay McKennon, 18, Santa Fe youth, alleged accomplice of Adrian Thompson, 19, of Spencerville, in an attempt to pass a forged check for \$220.40 on A. G. Boogher, have been without avail.

Thompson and McKennon presented the check at a bank here last Thursday, police say, but it was refused. Thompson was arrested at his home in Spencerville. GOOD POINTS ABOUT 'THE ROMANTIC ADVENTURESS'

Story is an Ideal One For Dorothy Dalton and She's the Same Dorothy

'Shavings' Comes in For Praise—Directory Reveals Good Programs Ahead

(By ESTHER WAGNER.)
CERTAINLY there are a lot of exceedingly good points about 'The Romantic Adventuress' and a very few bad ones. The story is an ideal one for Dorothy Dalton, who makes a rather good adventuress, she's the same old Dorothy Dalton with the same ready smile and dimples.
The story? It concerns one of those mothers you read about so often who wants to sell her daughter to the highest bidder. In her young days, the mother had deserted her husband, a dancing master, and her daughter, for her own selfish ends. And when father dies and leaves nothing but a daughter talented in classical dancing, the mother decides to make use of her. She eventually starts in a musical revue and is later taken to a fashionable winter resort, when mother plans to book a millionaire for her daughter's entertainment.

Her plans, however, are of no avail for daughter is soot proof and prefers life as the wife of a former football player to a mere existence in gilded palaces with a creature who had never gone in for athletics.
You must hand it to Augusta Anderson, who plays the part of the mother. Even in her snippest moments you do not dislike her and she certainly has looked more to her "finger" than her daughter in the past. Also, she appears no older, if at all.

Charles Meredith is the football hero whom the girl finally marries. Personally, I should prefer the creature and the dilled palace. Others in the cast perform nicely and the scenery and sets are quite lovely. All in all, there's a few dancing scenes that add variety to the film.
The 'Romantic Adventuress' should please the majority of picturegoers, especially Dalton fans. It is appearing at the Faurot.

Faurot—'Shavings.'

No corner of this country has more local color than old Cape Cod. How this locale has been captured in the play has been a puzzle. But it is

not a puzzle for the mother who decides to make use of her daughter's talents in classical dancing.

MESSAGES OF PRAISE

FROM THE NEW YORK CRITIC.

—About—
HENRY W. SAVAGE'S
CAPE COD COMEDY
"SHAVINGS"

Taken from Joseph C. Lincoln's Novel of the Same Name
Evening Sun—Taken in its entirety, one of the best casts that have ever appeared in a Broadway play.

"Shavings" is a play that should be seen. It is one of the comedy high lights of the season.

Evening Globe—Quite the best handled and most appealing climax any play has this season afforded.

What theatrical producers have eagerly been seeking.

Evening Mail—"Shavings" is as smoothly flowing as a lazy river that winds through a green valley.

Morning World—Keeps its audience in chuckles and on the verge of tears.

Alma Hale, N. Y. American—Cape Cod comedy excellently acted, town characters being depicted with a most deft touch.

Evening World—It is like going on a summer vacation to Cape Cod to see "Shavings," the refreshing comedy at the Knickerbocker theatre.

Journal of Commerce—No more admirable characterization has been seen this season.

"Shavings" is the kind of play that without your really knowing why, gets down under the skin and yanks away at the heart-strings until the audience gathers in your eyes.

Evening Telegram—Another American play has been added to the long list which is making the present theatrical season distinctive in this regard.

Daily News—"Shavings" is a comedy worth placing on your theatrical calendar.

CHAMPION'S TITLE NOT IN DANGER; FIGHT SLOW

(By HENRY L. FARRELL.)

NEW YORK.—If Sammy Seiger or Billy Defoe are the only ones in his way, Johnny Kilbane ought to walk thru the pearly gates with his featherweight championship crown.

The New Yorker and the St. Pauler fought a 15-round draw last night in Madison Square Garden in a bout that was billed to select the man to bump off the Cleveland Irishman.

Bill Farnum, the famous heavyweight fighter of the movies, was at the ringside.

He picked up two or three hundred pounds of himself after the last gong and remarked:

"If either one of them goes against Kilbane, they shouldn't let their relatives in."

Defoe might box a few rounds with the champion, but when it comes to punching, he didn't show enough to bruise a postage stamp. Seiger was even worse.

Tex Rickard said today that Kilbane agreed some time ago to meet the winner, but he probably would have a few more eliminations before calling on the champion.

With the approaching close of the winter season, it becomes more and more the belief that Kilbane will retire without defending his title again.

He intimated in Dayton recently, when he was called upon to make a speech before the Freddie Jacks-Blockie Richards fight, that "I'm going to retire before very long," he said. "But, I'm willing to give any good contender a chance before I hang up my gloves."

He's in no danger from the looks of the present crop of featherweights.

FEW TO FEAR, SAYS GIANT LEADER

NEW YORK.—"The Giants have only the Reds and the Pirates to fear in the 1921 race," Charles Stoneham, president of the New York National League said here today.

"We are the only club that has improved all around over last year," he said. "The Reds have lost slightly in batting strength, are no better in pitching, and weaker on the defense."

"The Pirates are strong in pitching, catching and defense, but weaker in hitting. Brooklyn is about the same as last year. They were lucky to win and I don't believe they can repeat."

"The Giants are better in pitching, in catching, stronger on the defense and offense and we have a young hustling club."

WORK STARTED TO IMPROVE BIG LINKS

ST. LOUIS.—Diggers of pitfalls for the unwary golfer began work today on the picturesque links of the St. Louis Country Club, which will be the scene of the amateur golf championship of the United States Golf Association, to add a few touches to the severe test already provided by the course for every shot from driver to putter.

The links, occupying 250 acres formerly known as the Farm of the Seven Hills, has the distinction of being the only course in the world that is entirely panoramic. A paved road winds around and thru the property in such a way as to afford a view of the play on every hole from a car. Even the long 13th hole, which lies two fair ways from the road, tilts toward the highway so that the play on the greenward can be seen. The drive winds in such a way that one need not even turn around to keep pace with the golfers, but may follow them stroke by stroke from the first tee to the 18th green.

NEED ONLY FEW PITS
While Stewart Maiden, the club professional has a boy of men at work already, due to the open winter the course has need of only a few small pits to make extra hazardous a couple greens that had been well protected by natural ice of the land. But these greens could be won by a vicious top up a hillside; and it was to compel a cat pitch shot that the work was undertaken.

Perhaps no golf links in the country has so much individuality in all 18 holes or possesses 18 holes with no two alike. An infinite variety of play is furnished. Even the drives are never the same if the player aims to take advantage of the topography to aid him in getting his second shot home by skill. A golfer who plays the course once can readily remember each hole for the rare sport it furnishes on account of some unique feature.

ARE 8 YEARS OLD
The links was laid out 8 years ago under the direction of C. B. McDonald, now a broker in New York, who with Douglas Tweedie planned the first golf course west of New York many years ago. Nestled in the shrubbery surrounding the magnificent, mission style club house, which overlooks the links of the seven hills, is a stone settee, inscribed to Mr. McDonald. Sitting on this bench, one can look over the rolling country to the forested foothills of the Ozark mountains, many miles away. A plaza along the south side of the club house overlooks a polo field of generous dimensions, while some artistic landscape gardening has made a floral decked garden of the grounds for some distance around the building. Hills, valleys, forests, crooks, lagoons, even precipices and a touch of marshland comprise some of the native characteristics of the links. All these have been taken full advantage of in making the course an endless test of golfing skill, grueling but never tiresome.

WRESTLERS MATCHED
COLUMBUS.—Stanislaus Zbyzsko and George Koizanos, heavy-weight wrestler are matched for a contest here February 21. The winner will receive 75 per cent and Koizanos will receive the entire purse if he secures a fall over Zbyzsko.

MICHIGAN TO SEND TRACK TEAM WEST

ANN ARBOR, Mich.—Michigan's acceptance of the University of California's invitation to engage in a dual track meet at Berkeley, California, April 9, will necessitate a number of changes in the Michigan track schedule for the 1921 season.

Because of a university ruling that prohibits absence of a team in any sport from school for a period longer than a total of one week in a season, it will be necessary to refrain from competition in certain western and eastern intercollegiate track meets. The Drake relays at Des Moines, April 22, the Penn relays at Philadelphia April 30, and the Eastern intercollegiate at Cambridge, Mass. May 27 and 28 are the events to be stricken from the Maize and Blue schedule.

The Michigan team will leave for California about April 1. As the spring vacation does not begin until April 8 the week away from school permitted the team during the season will be entirely used. An effort is being made to obtain permission for the team to engage in other contests one or two days at a time later in the season. This would necessitate a change of the university rule. Athletic officials are hopeful that a four-man team may be sent to the Penn relay, but it is said to be certain that Michigan will not be represented in the Drake relay.

If Michigan withdraws from the Cambridge event it will be necessary to apply for readmittance, as the Ann Arbor team was not entered last year. A college is automatically dropped from membership in the intercollegiate after two years' absence.

SCHEDULE TO DATE
To date there is nothing to indicate that Michigan will not engage in the following track events:

Feb. 26—Chicago meet at Chicago.

March 5—Illinois relays at Champaign.

March 19—Intercollegiate at Evanston.

March 26—Cornell at Ann Arbor.

May 7—O. S. U. meet at Columbus.

May 15—Illinois meet at Champaign.

May 21—Chicago meet at Ann Arbor.

June 4 and 6—Conference meet at Chicago.

Michigan will send a team of 13 men to the dual meet at Berkeley. Football is the only sport that pays at the University of Michigan, according to the annual report of Professor Ralph Algier, chairman of the board of control of athletics to the university senate.

During the last fiscal year, which included the season of 1919, football earned \$7,766.75, while its expenses were \$41,176.10, leaving a profit of \$33,509.66.

Baseball cost the university nearly \$5,000 above the receipts. Track athletics cost \$8,293.50 above receipts.

Receipts for the fiscal year from all sports were \$143,251.45, while disbursements were \$155,500.60.

HADDON CHAMP CUE ARTIST

CLEVELAND.—Charles Haddon of Dowagiac, Mich., today is the champion national amateur 18.2 ball billiard player. He won the title last night when he defeated Percy Collins of Chicago, 300 to 227 in the closing game of the tournament.

Haddon won five of the six games in which he participated. The only game he lost was to Francis S. Appleby of New York.

HURLERS HEADED SOUTH
NEW YORK.—Wally Hoyt and Harry Harper, two new Yankee pitchers, the first contingent of baseballers heading south, are on their way to Hot Springs. Wally Schang, secured in the same deal with Boston, decided he wasn't getting enough money from the New York Colonels, and was missing when the hurlers left.

RELAY MEET ATTRACTS RUNNERS

URBANA, Ill.—A record breaking list of entries is in prospect for the fourth annual relay carnival of the University of Illinois to be held here March 5.

Last year more than 300 athletes competed in the meet and judging from the entries thus far received, there will be far greater number in the competition this year. Many of the universities are entering their star athletes in the special events, besides sending their relay teams.

COMPARE RECORDS
A comparison of the records made in the last three relay carnivals at the University of Illinois with world's records show that the Western indoor classics has been the scene of many record breaking performances.

In 1917, Waldo Ames, one of the greatest hurdlers that ever donned an Illinois suit, smashed two world's records, running the 75-yard low hurdles in 8.2 seconds, and the 75-yard high hurdles in 3.3-5. The record in the 75-yard lows has stood since being made in 1913 by R. R. Templeton of San Francisco and equaled the following year by J. J. Eiler of New York. Their performance of 9 seconds was thought to be unbreakable, until Ames took 3-5 second from it in one of the greatest races of the meet.

RECORDS LOWERED
These records were doomed to go, however, when, two years later, Carl Johnson of Michigan and Le Gendre of Georgetown met in the final heats of both races. The tall Michigan star won both races, lowering the low hurdle mark to 8 and the high to 3-2-5.

In 1920 the performances of Jack Scholz were notable. The little Missouri flyer got away to a perfect start in the 75-yard dash and equalled the world's record of 7-3-5 for the distance. This mark has stood for many years, jointly held by Benjie Wefers, Archie Hahn, and Howard Drew.

One of the reasons for the unusual record-breaking performances in the track is the quality of the track. The 75-yard straightaway is one of the finest in the country. It is carefully built up each year with southern clay, and kept in the finest condition the year around.

The fact that the carnival is one of the first big meets of the year also adds to its attractiveness. Coaches are always anxious to try their men out in order that they can discover the weak spots of the team and have time to remedy these conditions before the outdoor season starts. The enormous size of the army makes it possible to have all the field events except the weights, and the conditions for jumping and vaulting are equal to those of any outdoor field.

PLAYERS, BUS IN FAVOR AT MEET

CHICAGO.—Revival of the baseball players' bus has found favor with the American Association magnate and the plan may be adopted for use thruout that circuit at the closing session of the A. A. club owners meeting today. Various other routine league matters remain to be disposed of, but the suggestion, made in a recent statement by the American Legion, of the Cubs, favoring the use of the old time carry-all to take the players to the diamond and back is the principal business before the meeting.

Pres. Thomas J. Hickey of the league said a majority of the club owners are in favor of the suggestion for its advertising value and the enthusiasm it arouses in players and fans.

One of the most important acquisitions announced at the annual meeting was the signing of Clarence Schallert, former pitcher of the White Sox, by Joe Cantillon of the Minneapolis club.

DETROIT ELKS IN THE LEAD

TOLEDO.—Garden Elks of Detroit today held first place in the Elks' National Bowling Tournament five men team department with a score of 2764. They rolled into first place on the late shift last night, replacing Fremont's team.

The Oxford of Detroit took fourth place with 2633 and Guthard Knighs of Detroit finished sixth with 2631.

TRACK MEET IS CALLED OFF

MORGANTOWN, W. Va.—An invitation for a dual track meet between Yale and West Virginia University, has been called off by the Mountaineers because the athletic field here is not in good condition. Yale asked that the West Virginians stage a track meet during the third week of March, but as the field, which is being improved, will not be ready by that date, the invitation was not accepted.

MANY ENTRIES ALREADY IN FOR DERBY

LOUISVILLE, Ky.—Entries for the Kentucky Derby for three years olds at a mile and a quarter, closed last night. The prospects are, it was stated at Churchill Downs, Louisville headquarters of the Kentucky Jockey Club, that between 125 and 150 owners would enter thoroughbreds. The number it was stated, could not be determined, inasmuch as those already received had not been tabulated. Moreover, it was said, entries sent thru the mails, which bore postmarks prior to midnight last night, would be accepted, probably occasioning further delay in announcing the number.

The entry fee is \$25, with an additional \$250 to start.

The Derby this year will carry \$50,000 in added money. The owner of the horse finishing second will receive \$10,000, the third \$5,000 and the fourth \$2,000. The estimated value to the winner will be between \$35,000 and \$40,000.

INDIANA TO ENTERTAIN ATHLETES

BLOOMINGTON, Ind.—Leading athletes representing nearly all the colleges and universities of the middle west will participate in a carnival of minor sports here March 10 and 11, the dates of the annual meet of the Western Intercollegiate Athletic Association.

Ewald O. Stiehm, director of athletics at Indiana University, has been informed by all the members of the Western Conference, except Michigan, that they will send representatives to the meet.

Invitations have been sent to the smaller colleges asking them to send athletes for the various events. One of the first responses was from Lawrence College of Appleton, Wis., which promised to send its crack wrestling team.

There will be at least 200 entries in the wrestling bouts, Coach Stiehm believes. It will be necessary to hold a number of preliminaries on the first day and the second day of the meet will be devoted to semi-finals and finals.

LEGION WILL MEET O.N.U. FRIDAY

All interest in American Legion circles and among basket ball devotees is now centered in the forthcoming game, Friday evening, between the American Legion quintet and the Ohio Northern University five of Ada, at Memorial Hall.

Hard workout in anticipation of the Friday night's game is the feature of the week with the local boys, under the direction of Manager Walter Costello. It isn't going to be any easy task to defeat the North-spn, but the Legion boys will make the best effort that is in them. The university team recently defeated the New York Nationals.

Tickets for this big event in basket ball circles may be secured at the Manhattan cigar store.

ARRANGING MEETING

NEW ORLEANS, La.—Promoter Dominick Tortorich is negotiating with Bill Brennan and Bob Martin for a meeting here with Captain Bob Roper, it was announced today. Roper is to meet Jim Griffin, Pacific coast champion here Friday night, while Brennan and Martin are having it out in New York.

INVADING EAST

MARIETTA.—The Marietta College basketball team left today on its eastern invasion. The quintet will meet Navy, Georgetown, Loyola College of Baltimore, Juniata and Cornell.

Don't Take It Out in Thinking

Thinking

Thinking never got anyone any place.

Action is what gets you there, and it is going to take action on your part, if you are going to share in the prosperity of The Lima Sheet Metal Products Company.

One of the men who were originally asked to come into this company was in our office. He was full of regrets because he had not purchased these shares when he was asked to a year ago. HE REGRETTED THE 100 PERCENT STOCK DIVIDEND HE DID NOT RECEIVE, BECAUSE HE DID NOT TAKE ACTION AND BUY THE SHARES WHEN HE HAD THE CHANCE.

What this stock is going to do in the future, we are not going to predict, but we do say, that today, based on what the company has done in the past, and WHAT IT IS DOING RIGHT NOW, THAT AT \$10 per share IT IS A DECIDED BARGAIN.

Action on your part will let you share in this prosperity. We cannot see everyone and share

LIMA A COAL DUMP

Thousands of tons of Coal, much of it of an inferior quality has been shipped into Lima this winter in search of a market. Such coal is known in the trade as "Distressed Coal" and some coal haulers handle such coal because it can be sold cheap to those who consider "Price" before "Quality."

Our MANHATTAN LUMP is mined by the Manhattan Mining Co., our NYCO BLOCK by the New York Coal Co.; these companies think enough of their product to brand it with their own name.

These are "QUALITY" coals. We know. For Coal Satisfaction try them.

We also have in stock GENUINE POCAHONTAS lump, nut or mine-run, Solvay Coke and Hard Coal.

ONE ESSENTIAL ELEMENT

To aid your happiness, is the benefit that teeth will be to your system. If they are producing an injurious effect, you must pay the price of suffering. When it is necessary to remove one or more, you will begin to see their importance and precious value.

The fascination that patients have for my operations, is such that their influence wins some most interesting patrons to my door.

You will get a new interest in teeth if you call to-day.

TOO LATE TO CLASSIFY
The building will be open to visitors in the evening but no special program has been arranged.
One of the interesting exhibits is the Lima State Hospital showing of cattle and hogs in the northeast corner of the building.
The horses are quartered in the rear and the swine on the south side of the building. Cattle will be found on the north side.
Many exhibitors are taking advantage of the show to display farm machinery and farm necessities.
Something that will attract the eye of the boys and girls is the showing of ponies. The equine midges are in stalls near the main entrances. New born calves, quite a few of the Jersey variety, are to be seen.
It is announced that licensed veterinarians will render free service to livestock at the show, if needed.
R. E. Bassitt, secretary and treasurer of the board, will settle all disputes if any should arise among the exhibitors.
The classes of animals and premiums for which they are competing is the biggest and strongest ever offered by the board. This is their third annual fair.
W. T. Agertter is president and K. Rakestraw vice-president of the fair association. The board has fifteen directors.

OXFORD HEAD IN STUDENT TALK

Dr. Boyd Analyses Biggest Things in An Education

Dr. W. W. Boyd, head of Western College for Women, Oxford, addressed the Central High school students Wednesday morning on the subject "What an Education Means."

Dr. Boyd stated that he considered the two biggest things meant by an education are that it makes a longer life and a happier life.

He said that by a longer life he did not mean to add years at the end of life, but to add them in the beginning.

"The sooner you take up the work of life, the sooner you are going to start to live," Dr. Boyd said. "Education gives you years when you can do something with them, at the beginning, not the end of life."

In explaining a college education, the speaker said that a college education does not mean that you could put a cigarette in your mouth and loaf the rest of your life, but that it meant years of hard work and that when you were a college graduate you would not immediately become president of the United States, but would have to start at the bottom of any work you took up.

Dr. Boyd then gave an example of two boys who became superintendents of mines. The first boy went to the mines as soon as he graduated from high school and by the time he was 40 years old he was made superintendent. The other boy took a college course in mining and started at the same position as the other fellow, but reached the top when he was 25 years old. This added 15 years to the second man's life, according to the speaker.

"This rule holds true in any occupation," said Dr. Boyd.

In speaking of how education brings happiness, Dr. Boyd illustrated his argument with examples from the high school studies. "The greatest happiness in life is to know you have brain power to understand a thing," stated the speaker. "In your daily studies such as Algebra and Latin, you are building up things that will be the greatest happiness in life."

FORMAL OPENING MIDWINTER FAIR

Big Exhibits Feature Show, Open Day and Night

Farm wagons, motor trucks, the growing of roosters and neighboring of horses at the big Buick storage room on N. West-st Wednesday morning, gave ample evidence that the Mid-Winter Fair is starting off in earnest. The fair ends Friday with a grand parade of stock at 1 p. m.

Farmers, helpers and officials of the fair board, were bustling about in an effort to have everything in readiness for the crowds that are expected in the afternoon.

Entries for the big fair closed Monday at 8:30 p. m. and are larger than last year. W. T. Agertter, president of the board, said Wednesday.

The building will be open to visitors in the evening but no special program has been arranged.

One of the interesting exhibits is the Lima State Hospital showing of cattle and hogs in the northeast corner of the building.

The horses are quartered in the rear and the swine on the south side of the building. Cattle will be found on the north side.

ENLISTING INTEREST OF PUPILS IN CONTESTS

County Superintendent Arganbright is again mailing out premium lists to Allen-co pupils, containing lists of prizes to be given in connection with the county fair next August, in the educational department.

Arganbright was not sure that the first mailing of the lists brought the proper response so he is again trying to awaken the pupils in the rural schools to the value of the opportunity afforded them.

DUPES IS CAPTAIN OF COMPANY C

New Complement of Officers For Local Guard Unit

In a complete reorganization of Company C, the local national guard infantry unit, new officers were named Tuesday night for the company. They are: Oscar A. Dupes, captain, Clyde L. Custer, first lieutenant, Arden D. Zurnehly, second lieutenant.

Captain Dupes, the fourth commanding officer of the company in two years, is conducting a general straightening up of records and cleaning up of equipment, with the help of three enlisted men who have been detailed on the work for 15 days.

The first thing being done is making up of the payroll for the enlisted men's drill pay for the whole of 1920, the men having received no pay during that time.

Indoor target practice will be started at the armory immediately and an outdoor target range is under construction on the farm of Lieutenant A. D. Zurnehly. This range will be ready for use by spring.

Captain Dupes has opened a campaign for recruits, but says enlistments are open to only men with a capital "M."

The company, which is now a part of the Third Ohio Infantry regiment, will be transferred in the near future to the second regiment.

BRINGING UP FATHER—

SHORT SHAVINGS

"If the fellow who is going to dance with me at the ball is as he looks at the moment, I'll be glad when the dance is over."

"If he should die," asked the man, "could I have a dance?"

"Certainly," answered the girl. "With— and the maid?"

"I see him alone for a few moments."

"I hear the dance has not five thousand-dollar car."

"When did they ever get it?"

"The car?"

"No, the five thousand."

"Oh, they haven't got it yet?"

"Would you marry a woman like her?"

"No, sir. The ordinary woman can cross-examine quite well enough."

A business man advertised for an office boy. The next morning there were some fifty boys in line. He was about to begin examining the applicants, when his stenographer handed him a card on which was scribbled:

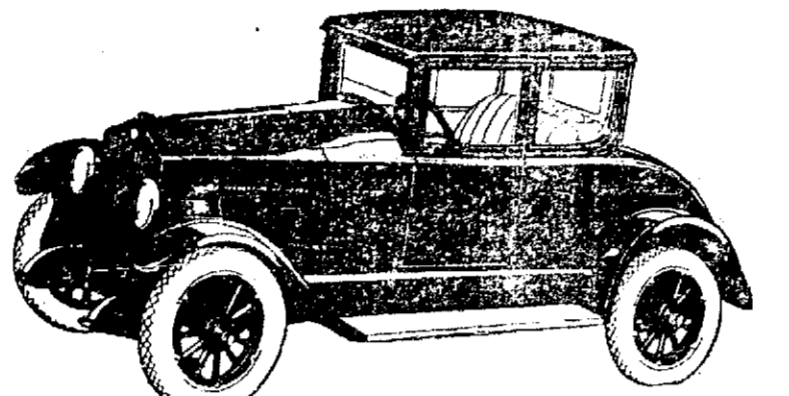

"Don't do anything until you see me. I'm the last kid in the line, but I'm telling you I'm there with the goods."

"How do you figure what prices to charge?"

"We fellows have it down to a system," replied the grocer. "Last year when sugar was 20, cranberries were 8 now when sugar is 8, cranberries are 20."
